		Tec Sidemount Instructor	3-4 days

TEC PRICING: Please note that we are committed to making sure that all of our Tec divers and Instructors meet the course performance requirements in a calm, comfortable and repeatable manner and that you have the capabilities to plan and dive in similar conditions to those in which you did your training. Tec diving has additional inherent risks, when compared to recreational diving, and we want to minimize these additional risks as much as possible by making safe, confident Tec divers. This means is that our training is performance-based, not time-based, so your Instructor will discuss with you if they feel that additional training days above the normal duration are required in order to meet the performance requirements comfortably. Additional training days are billed according to the price list. Training materials, equipment and gases (except air) are not included in course or guided dive prices. EANX32 is \$8 per tank and EANX50 is \$12 per tank.

TERMS: All activities are subject to availability and have to be planned according to weather and tides. XTC Dive Center reserves the right to cancel activities if it deems that conditions are unsuitable for safety reasons and, in doing so, will give a full refund. Prices do not include the marine park fee which is \$50 MXN daily or \$1500 MXN for an annual pass in Xcalak & \$300 MXN for Chinchorro. This fee is required for every day that you have water activities and will be added to your bill. **PAYMENTS:** Clients are kindly requested to pay 50% of the reservation price upon confirmation of booking (net of bank charges). The remaining balance should be paid on arrival.

CANCELLATION: Reservations cancelled less than 14 days before the arrival date will be subject to a 100% cancellation fee.
